

Jane Doe

Senior React Developer

jane.doe@example.com | +1-555-0199 | San Francisco, CA

linkedin.com/in/janedoe | github.com/janedoe | janedoe.dev

Experienced software engineer specializing in frontend technologies, specifically React, TypeScript, and state management libraries. Passionate about building accessible, performant, and beautiful user interfaces.

Experience

Lead Frontend Engineer, TechInnovate Solutions

2021 - Present

- Led a team of 5 frontend developers to rebuild the core dashboard application using React 18, improving page load speeds by 40%.

- Designed and implemented a custom UI component library using TailwindCSS and Radix UI, reducing development cycle time by 25%.
- Established frontend testing standards using Jest and React Testing Library, achieving 90% code coverage.

Senior Frontend Developer, AppForge Inc.

2018 - 2021

- Migrated a legacy AngularJS codebase to modern React and Redux, eliminating memory leaks and reducing API payload size by 30%.
- Optimized Webpack build configurations, reducing bundle sizes by 50kb and improving first contentful paint (FCP).

Education

B.S. in Computer Science, University of California, Berkeley, Berkeley, CA

May 2018

CGPA / Score: 3.8/4.0

Skills

Languages

JavaScript TypeScript HTML5 CSS3 Python

Frontend

React Redux Toolkit Next.js TailwindCSS Sass

Backend & Cloud

Node.js Express PostgreSQL REST APIs

AI & Tools

Git GitHub Actions Docker Webpack Vite

Certifications

- **AWS Certified Cloud Practitioner (2023)**
